

AMATEUR RADIO

GENERAL & TECHNICIAN CLASS

The Anchorage Community College, Eagle River Extension, is offering a 3 credit course for obtaining a General or Technician Class Amateur Radio License. Two class locations are available. This semester there is also a 1 credit class being held to learn the International Morse Code--Bldg. K, ACC campus. These are 15 week classes.

ET-194 ELEMENTARY ELECTRONIC FUNDAMENTALS (HAM RADIO) 3 CREDITS

ET-194B INTERNATIONAL MORSE CODE 1 CREDIT

Locations:

Chugiak High School	ET-194	Tuesday	1900-2200 Hrs. Begin Jan. 20, 1980
Ft. Richardson- Kiska Hall	ET-194	Thursday	1830-2130 Hrs. Begin Feb. 19, 1980
ACC Campus-Bldg K Room 211	ET-194B	Wednesday	1830-1930 Hrs. Begin Jan. 21, 1980

REGISTRATION: Registration is now open. If you plan to take either course, sign up early. The classes will be limited in size. Call SAM at 694-3313, Eagle River College Center, for registration information.

The required instructional materials are:

1. Amateur Radio Theory Course. AMECO Publishing Corporation
2. The Radio Amateur's License Manual. ARRL, publisher
3. The ARRL Technician-General Q and A Book. ARRL, publisher

Optional reading materials are:

1. The Radio Amateur's Handbook. ARRL, publisher
2. A Course in Radio Fundamentals. ARRL, publisher

For both ET-194 and ET-194B, we strongly recommend the following tapes. Each set consists of 2 tapes, sides 1 & 2 and sides 3 & 4.

- Set 1. Codemaster CM-1 (for speeds up to 9 wpm)
Set 2. Codemaster CM-1 1/2 (for speeds up to 17 wpm)

All of these materials can be purchased at Reliable Electronics, 3306 Cope St., 279-5100. The books can also be purchased at Radio Shack in Mountain View, 277-2142.

Since the Morse Code requirement is the biggest stumbling block for most license candidates, it is recommended to sign up for both classes. The code class should be registered for and started on Jan 21, even if you are taking the theory class beginning in February.

The instructor for these classes will be:

WILSE MORGAN, KL7CQ 345-1061

EL SUPREMO GOES QRT

The one time I get this thing done on time...and it has to be the last one. I have been trying to think of some appropriate way to write this and it hasn't gone well. Perhaps the direct way...It seems that I am taking a job in Seattle in mid January and will be leaving the state permanently about then. I have given my resignation as President of the AARC to the Board and after the January meeting, Herb Brasseur, KL7JIG, will be your next President. It is not without a great deal of mixed emotions that I leave the club and Alaska. In my four and a half years here I have had the pleasure to be associated with some fine people in the ham community and I shall miss you all very much. But enough of this blubbing...

Ken Delp, KL7FD, the Nikolai Beaver Eater, will be taking over in my stead as Iditarod Person. He and I will be going over the plans and he'll be taking it all on by the end of January. Call him or me between now and then if you want a checkpoint or have any problems. The current status of the Iditarod is published along with some other stuff elsewhere in the letter.

For those of you who didn't make the Christmas party last month...Sorry about that...It was the best event we've ever had and the people who organized it are to be commended... including Tanya, Cathi, and Betty, AARC's answer to the Katzenjammer kids, for their work on the official El Supremo crown, scepter, and robe. I'm sure Butch will enjoy tearing them to shreds....

Hope to see you all at the meeting Friday night. We have a few items to clear up and I'd like to be able to say goodbye to you all personally. Thank you all for the fun and games of these past years. There will always be a warm spot in my heart for the club and Alaska, as well as a place to stay in Seattle when I get settled in....

73's

Chip Lewis
El Supremo (Ret.)

NEWSBRIEFS

Steve Wilcox, KL7JIM and XYL, Virginia have a new baby boy born on December 18.

Steve Norrell, KL7IYX was hospitalized but didn't want anyone to know. He is home now and doing fine.

Wilse Morgan, KL7CQ finished his Tech-General class with a bunch of new hams, including 2 who went from no license to Advanced.

The newsletter this month is being printed by Fred Pride. Tanya, WA1RVG and I are up to our ears in activities so hopefully having the newsletter printed by a pro will take some pressure off of us.

ANCHORAGE AMATEUR RADIO CLUB

Board of Directors Meeting

17 December 1980

Present:	President	Chip Lewis	KL7IUI	Board Members:	
	Past President	Fred Wegner	KL7HFM		
	Vice President	Herb Brasseur	KL7JIG	John Bierman	KL7GNP
	Secretary	Marian Arlin	KL7IT	Dave Cloyd	KL7M
	Treasurer	Dave Zugsberger	KL7FO	Lloyd Fuller	KL7JGN
	Activities Mgr			Wilse Morgan	KL7CQ
	Club Trustee	Bill Reiter	K17ITI	Betty Rhodes	KL7AP
				Dan Rogers	KL7ICP
				Herb Rosenthal	AL7G

Absent: Cathi Moody, WL7AB0; Paul Bestry, KL7FI;
Steve Norrell, KL7IYX

Also Present: John Orella, WA6ZIJ

The meeting was called to order by the President, Chip Lewis, at the QTH of Bill and Elli Reiter.

SECRETARY The minutes were approved as corrected.

TREASURER The Treasurer reported a balance of \$9706, most of it in a savings account. The report was accepted. Application for changed status has been received by the IRS, but nothing further has been heard.

UNFINISHED BUSINESS PHS Station: John Orella reported that Dr. Bender has agreed to take our request for station space to the hospital administration.

Life Membership: Betty Rhodes suggested sending a reminder to those who started paying in October noting that they have 10 months in which to complete payment.

Newsletter: Both Tanya and Betty are resigning and either a new editor should be found or the work turned over to professionals. Circulation is currently around 300. It was moved that the next issue should be awarded on a trial basis to a printer that will print, collate, staple, and ready for mailing at a cost of \$280.

Bingo: Herb Rosenthal once again voiced concern that the Bingo operation needs to be evaluated. Dave Zugsberger will investigate early next year.

Storage of Club Equipment: Betty quoted costs of various storage accommodations at the Alaska Storage Mall on Ship Avenue. The Board moved that we should find and occupy a storage locker of adequate size and accessibility. A committee will be appointed to prepare an inventory of club equipment. The trailer and antenna will be moved to Lloyd Fuller's back yard.

Nordic Ski Races: Bill Reiter will be asking for volunteers to man the January 4th local ski races as a practice session for the U. S. Ski Association races to be held here at the end of the month.

Iditarod: A \$9950 budget proposal has been submitted to Alascom, with excellent prospects that it will be awarded in entirety.

NEW BUSINESS Requests for Funding: The Board voted to give the Matanuska Club the \$120 they need to complete the financing of their 25/85 repeater. A request for the AARC to underwrite the expense of a duplexer in the Tok area was considered. A permanent committee will be appointed at the next general meeting to review requests for funding outside the club. Dan Rogers will be the board representative on the committee.

DXpedition QSLs: The AARC has been asked to take over QSL-ing for KA7APJs mini-DXpedition. John Bierman will be manager, and volunteers for his committee will be requested at the next general meeting.

Borrowing Equipment: Requests to borrow or rent 2-meter equipment have been received from a Denver vacationer (January) and six hams in a summer mountain climbing expedition.

Desertion: The meeting concluded with the announcement that El Presidente, El Supremo, El Magnifico is abandoning his flock for the bright lights, easy living, and liquid sunshine of Seattle. Herb Brasseur will assume the Presidency, and Dennis Ogren was nominated to replace him as Vice President, to be voted upon at the next general meeting. Ken Delp, KL7FD, will take over Iditarod.

Meeting was adjourned at 8:55 p.m.

The next meeting will be at the QTH of Lloyd and Vicki Fuller.

THE CHRISTMAS PARTY/MEETING was a great success. 96 people RSVP'd for the dinner with 87 actually showing up. Cathi, WL7ABO was chairman and really worked up a storm. There were door prizes at the usual 50¢ per ticket as well as a surprise TV at 50¢ per ticket. Bill, KL7ITI and Ellie, won the TV which will go to daughter Carol for her wedding. Committee members prepared the entire meal. Lots of thanks go to: Tanya, WA1RVG; Sue Michael, AL7BN (formerly WL7ABK); Marian Arlin, KL7IT; Vickie Fuller, WL7AJV. Hope everyone had as much fun as we all did.

THERE is a new parts store in town. Alaska Electronics Supply, Inc. is open for business at 5401 Fairbanks St Suites 1 & 2. Chuck Sappah, KL7PJ is VP and looking forward to seeing everyone. Since Yukon Radio closed the doors this past Fall Anchorage has been hurting for parts. The store is off of Int'l Airport Rd. across from UPS (Ak Rapid Transit).

Paul Bestry, KL7FI and Dennis Ogren, KL7JHR set up and manned an amateur radio display at the Girdwood School in November. They took the club trailer and set up the tower and beam. Quite a lot of traffic was passed. The kids were fascinated with being shown Ham Radio. The Girdwood principle will be sending a note of appreciation. Thanks to Paul and Dennis for being able to take the time for the exhibit.

The Club now has a storage locker at the Alaska Storage Mall. If you've got any bits and pieces that belong to the Club and want them out of your way, call Betty KL7AP, 345-1061 or 34/94 . I'll be happy to pick up. We are trying very hard to get all the equipment in one spot so we know exactly what we do have. There is enough room to store some surplus equipment that always gets donated thru the year (we hope).

A thought about losing things:

You can always find what you're not looking for.

Editor
ANCHORAGE ARC,
P. O. Box 1987
Anchorage, AK 99501

Dear Sir:

I ran a patch for one of your Anchorage stations recently, and he commented on the excellent audio quality of the patch. This led to a story of the KWICK-PATCH, and he made me promise to write you about the device.

Erv Rasmussen, W6YPM, a transplanted Wisconsin paint salesman looking for a project to liven his retirement on the San Francisco Peninsula in the early 1960s, was seeking a low impedance transformer to be the heart of a phone patch he intended to build for himself and a few of his friends. He heard of 60 being available in a military surplus sale, and put in a bid. Erv had to hire a truck! His successful bid was for 6,000, not 60, of boxed, hermetically sealed, beautifully built units made by Federal Transformer to Signal Corps specifications. Following the bad McCarthy era of Army, FBI, and CIA bugging half the telephone lines of the country, this surplus stock of CIA bug transformers was being quietly disposed of in the anti-eavesdropping reaction which followed Congressional inquiries.

But back to W6YPM. Staggered by the glut of transformers, he designed, manufactured, and merchandised the KWICK-PATCH, out of his garage, helped only by his wife, Marie.

There were not many patches available to hams in those days. The Drake Company made a few, and then cautiously withdrew from the field. Erv found that QST, 73 and other electronic magazines refused to run his ads. Giant A.T. & T. was contending that any connection with its sacrosanct telephone lines was not only illegal, but subject to an instant \$10,000 fine and possible federal imprisonment. Manufacturers and the magazines were intimidated. Erv could get advertising space only in the maverick CQ magazine, and his first orders for the KWICK-PATCH came from KL-7s where frontiersmen defying the land, the weather, and the environment were not going to be frightened by MA BELL's rumblings. A phenomenal number of KWICK-PATCHES were sold in Alaska, phone patching by hams was popularized in the Territory, and the CQ ads plus word of mouth testimonials for the patch came out of Alaska to the Outside.

Nov. 26, 1980

Ten years later Erv retired again, closing KWICK-PATCH operation out of sheer exhaustion. He had been too successful, having made thousands of the little patches, sold country wide.

Now phone patching by hams was legal, thanks to an anti-trust decision by the U. S. Supreme Court in the 1970s. All the manufacturers, including the ubiquitous Heath, were providing equipment. KWICK-PATCH was no longer needed.

I acquired one of the devices 15 years ago, at an estate sale of an Anchorage ham who had emigrated to the lower 48 to die. The local address of the patch manufacturer intrigued me, and I met Erv and learned of his story. Thousands of his patches, including mine, are still in daily use.

Erv gave me the circuit diagram enclosed. The history of his patch was written up in the June, 1978 issue of CQ Magazine as a how-to-do-it cover story.

A couple of the original "bug" transformers, the heart of the patch, are also enclosed. Maybe you will want to raffle them off at a club meeting.

Incidentally, for those who may wish to construct a good \$5 phone patch with the help of junk box parts, a few remaining transformers of the original stock are still available through Menlo Pacific Co., P. O. Box 5009, Redwood City, CA 94063 for \$2 postpaid each, or \$3.75 postpaid for two. This company acquired the balance of Erv's transformers.

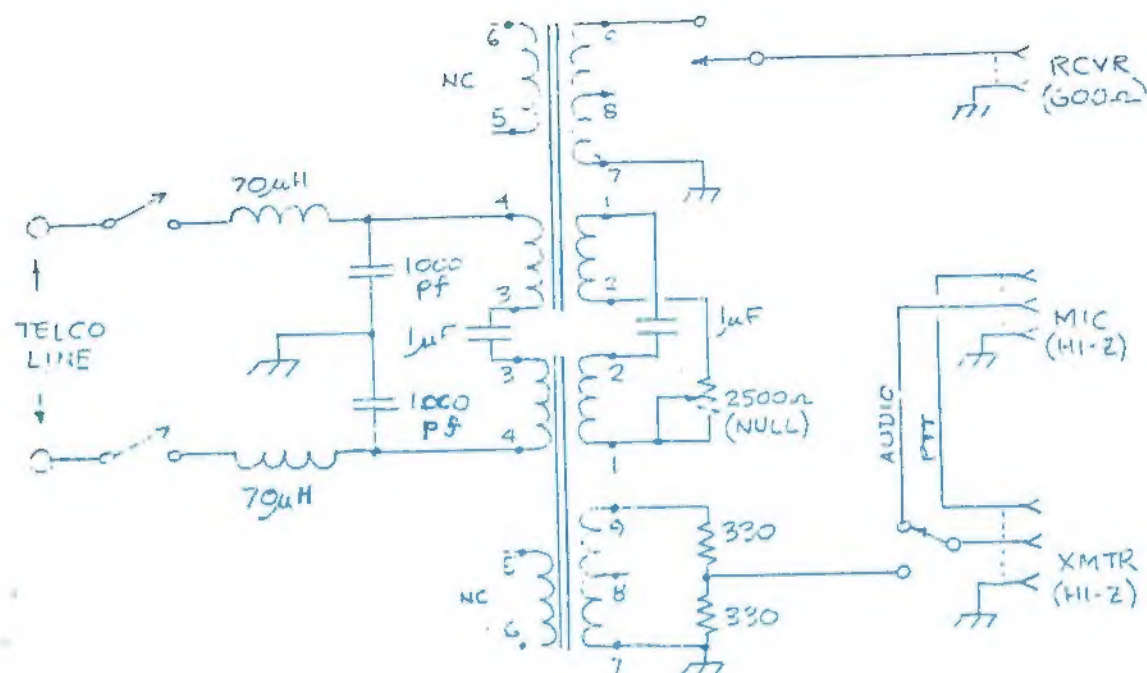

So I've done my duty and told you of the story. Erv, W6YPM, still active on all bands, passes along his thanks to the KL-7s who popularized his device nearly 20 years ago.

If you publish this, please place me on the ANCHORAGE ARC mailing list for a while, and I'll say "hello" the next time I'm in town.

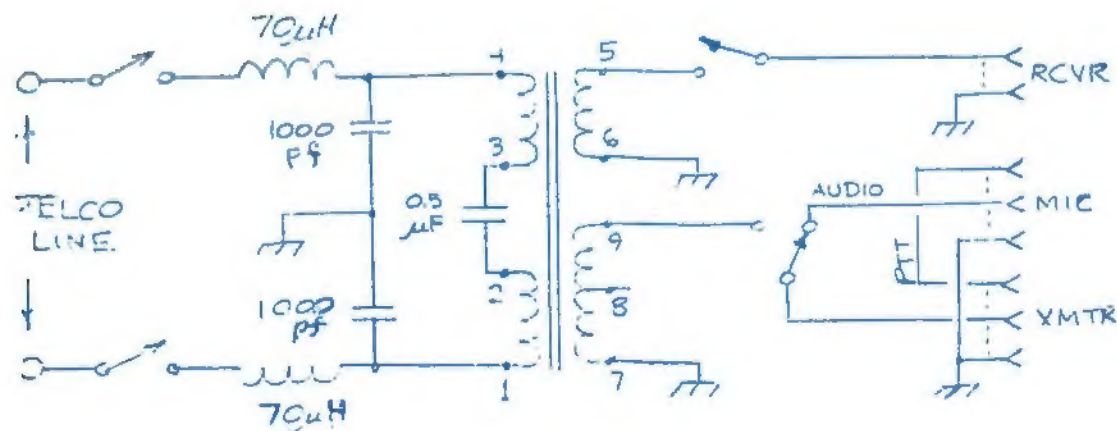

73.

Erv

HYBRID PATCH

SIMPLE PATCH

PHONE PATCH

(de W6 YPM)

To the left you will see two schematics. The first circuit, hybrid patch, is for those who desire VOX operation. It provides isolation between the output of the receiver and the input to the transmitter, as adjusted by the null pot with a line and telephone connected.

The second circuit, simple patch, provides a simpler but adequate phone patch without all the hassle. PTT operation is mandated since the output of the receiver is very well coupled to the audio input of the transmitter. The receiver must mute on transmit.

Capacitors for either circuit should be rated at 150 volts, at least, to avoid breakdown from the high voltage ringing signals of Ma Bell.

ALASKA'S HAM STORE FOR ALASKAN HAMS
CH

IDITAROD '81

WELL, I DIDN'T THINK IT WAS POSSIBLE, BUT IDITAROD IS ROLLING AROUND AGAIN. IT'S ONLY THREE MONTHS AWAY AND WE NEED TO GET THINGS PRETTY WELL ORGANIZED SOON. I HAVE GOTTEN THE TENTATIVE LIST OF CHECKPOINTS AND HAMS PUT TOGETHER AND IT'S ATTACHED. TAKE A LOOK AT IT AND IF YOU ARE AVAILABLE FOR A CHECKPOINT, LET ME KNOW. THE ONLY REQUIREMENT IS THAT YOU HAVE A GENERAL CLASS TICKET TO GO OUT ON THE TRAIL. IF YOU HAVE GEAR TO LOAN WE NEED TO KNOW THAT, TOO.

A FEW DATES TO REMEMBER...

JANUARY 2	FINAL COMMITMENT FOR CHECKPOINTS
FEBRUARY 13	WEATHER AND GENERAL BRIEFING
MARCH 3	FINAL BRIEFING FOR ALL CHECKPOINTS
MARCH 7 10AM	RACE STARTS- VHF CHECKPOINTS IN PLACE BY 9:30AM

WE HAVE HAD A LOT OF GOOD RESPONSE TO THE RACE THIS YEAR. SEEMS LIKE IT GETS BIGGER AND BETTER EACH TIME. THE HEADQUARTERS STATION WILL BE IN THE SHERATON THIS YEAR, ELIMINATING THE NEED FOR A RITTY LINK TO RACE HQ. WE WILL NEED OPERATORS AT HEADQUARTERS AGAIN THIS YEAR TOO, FOR THOSE OF YOU WHO CAN'T TAKE THE TIME TO GO OUT ON TRAIL. THINGS GET PRETTY HECTIC AROUND THERE DURING THE RACE AND QUITE OFTEN PEOPLE GET IGNORED UNINTENTIONALLY AND IT ALL SEEMS LIKE SUCH A WASTE OF TIME. BELIEVE ME, IT ISN'T A WASTE AND WE NEED YOU, AND I'LL GUARANTEE THAT IF YOU SIGN UP TO WORK HQ THIS YEAR YOU'LL OPERATE...A LOT.

FOR THOSE OF YOU WHO ARE NEW TO IDITAROD THIS YEAR AND ARE PLANNING TO SIGN UP FOR A CHECKPOINT...AS IN PAST YEARS, A PER DIEM WILL BE PROVIDED AS WELL AS TRANSPORTATION TO AND FROM YOUR CHECKPOINT. SHELTER WILL BE MADE AVAILABLE TO YOU (IN VARYING DEGREES OF QUALITY) AND EVERY OPPORTUNITY WILL BE TAKEN TO MAKE SURE YOUR EXPERIENCE IS SAFE AND ENJOYABLE. YOU WILL HAVE A CHANCE TO EXPERIENCE THE REAL ALASKA, MEET ITS PEOPLE, AND TEST YOURSELF AND YOUR ABILITY TO PERFORM IN A DIFFERENT SITUATION THAN YOU MAY BE USED TO. SO FAR EVERY ONE WHO'S BEEN OUT ON THE TRAIL HAS HAD GOOD THINGS TO REMEMBER. I HOPE IT WILL BE THE SAME THIS YEAR.

ANY QUESTIONS YOU HAVE MAY BE DIRECTED TO ME EITHER AT HOME OR AT WORK (272-7461). THIS IS A GOOD TIME NOW FOR YOU NOVICES TO THINK ABOUT UPGRADING TO QUALIFY FOR A TRAIL SLOT. MUCH MORE COMING LATER...

CHIP
KL7IUI

PS --KEN DELP, KL7FD WILL BE TAKING OVER IDITAROD--CALL HIM AT
